

Lakes Basin Special Study (LABSS)  
Project # 6

Horseshoe to Lake George Path

CONCEPT: "Increase the attractiveness of Horseshoe Lake as a staging area and reduce pressure on available parking and other resources in the Lake George area by developing a multi-use path connecting Horseshoe Lake to Lake George. The multi-use path should use a paved or crusher fines (decomposed granite) surface."

Trail Alignment Study DRAFT 06/20/2018
