

What assets and tools do you use to move your work forward?

Asset Examples:

- The Existing Regional Assets - the campgrounds, trails, etc.
- People - local land managers, NGO staff, contractors
- People - local education staff, faculty, job opportunities
- Skilled local trades
- State and local funding

state & national parks

Referencing strategic plans —using them as a guidepost for creating collaboratives

Resorts/ Hotels

Leveraging regional partnerships and working groups

information sharing, yes, communication with land managers--YNP, STN, State Parks, Central Valley municipalities that operate the reservoirs like Don Pedro.

all-season recreation

Ski & Rec Areas

Engaging Non-tourism related businesses that are impacted by tourism

✓ Yes, applies to my project

✗ No, this does not apply

Tool Examples:

- Finance software
- Time tracking software
- GPS and spatial software
- Chainsaws
- Heavy equipment

Leaning on NGO and Gov agencies at a suitable moments

Data tools (ex Placer AI) Placer ai Madden Voyage, Visit California reporting

finding ways to organize together and finding projects that multiply rather than duplicate.

Partnering with K-16 to create employment pathways

Talent Attraction

Sierra K16 Collaborative now covers the Sierra Jobs First priority sectors - another round of funding will come out soon for \$125,000 and that funding can pay for paid internships and high school to college to career pathways.

Disparate groups pursuing similar goals in a disorganized or capacity limited manner

What challenges are you facing in utilizing your assets to advance your project?

<p>Challenge Examples:</p> <ul style="list-style-type: none"> • Partner's changing priorities • Government shutdown • Contract reporting • Cash flow • Lack of consistent involvement 	Pace of work and calibrating to a specific partners (e.g. govt)	Capturing institutional knowledge through documentation, volunteers, and entry-level position nurturing	Throw something at the wall and seeing if it works and FINISHING it	Lack of youth involvement	Creating community awareness around projects	Success sometimes attracts more activity (whether we all strategically agree its right or not/not letting process be the death of us)	Maximizing outcomes from an economic standpoint - infrastructure investments need programming investments (how to coordinate NGO funds following govt funds) etc
 Touchscreen or trackpad Pinch to zoom Swipe with two fingers  Mouse Scroll to zoom Hold right-click to move  Keyboard Zoom in/out with + and - + - ✓ Yes, applies to my project ✗ No, this does not apply	<p>Getting new voices to come to the table</p>	<p>The same people show up to strategic planning sessions and are already stretched thin</p> <p>✓ Yes, applies to my project</p>	<p>Working with federal land managers and their limitations</p>	<p>Capacity limitations—maintaining commitments</p>	<p>Advancing partnerships during employment transitions/ burnout/capacity constraints</p>	<p>Existing partners ARE doing a good job w/their pieces // challenge is to weave regional work together when funding streams are NOT regional</p>	<p>Regional job sector but funding system have county lines</p>

What gaps in assets or tools exist that are hindering the advancement of your work/project?

<p>Gap Examples:</p> <ul style="list-style-type: none"> • Funding • Local Government Engagement 	Working well—relationships which define and makes/breaks the success of projects	Funding and how to sustain the pipeline	Federal, state, and local policy changes	Food bribery generates involvement from younger generations
	<p>Communicating to our stakeholders with all passion and commitment (ESWA)</p>	<p>Strategic coordination by issue</p>	<p>Complexity of the simplest through-line</p>	<p>Line up infrastructure with funding structure</p>
