

Our Mission

Beneficial Designs works towards universal access through research, design, and education. We believe all individuals should have access to the physical, intellectual, and spiritual aspects of life. We seek to enhance the quality of life for people of all abilities, and work to achieve this aim by developing and marketing technology for daily living, vocational, and leisure activities.

Our Work

Beneficial Designs develops assistive and adaptive technology, performs rehabilitation research, contract design, legal consultation, standards development, and serves as a rehabilitation information resource.
