

## Chapter 7: Registration

MLTPA was responsible for developing and tracking registration for all CAMP: WINTER sessions, both before and during the event. MLTPA staff, Board members, and volunteers also were responsible for checking guests in for each session and providing them with nametags. Walk-ups were admitted to all public events with no capacity limit by having them sign in and fill out a registration form on-site. Guests also were asked to sign waivers when necessary.

- **Online registration summary**

MLTPA engaged the services of RegOnline to maintain online registration for the event. Participants accessed the special CAMP: WINTER section of the RegOnline site by clicking through the Registration page on the CAMP: WINTER mini-site. Once their information was submitted, participants received a confirmation e-mail thanking them for their registration, and the registration information was immediately forwarded to MLTPA staff to be recorded in the “CAMP: WINTER Master Registration List.” Additionally, this service enabled users to change those events for which they’d registered, cancel registration completely, be put on a wait list for events that were at capacity, and receive auto-generated e-mails from MLTPA regarding proper attire, session openings, last-minute session cancellations, and other information. Online registration closed at noon on February 7, 2008.

- **On-site registration summary**

Once online registration had closed, guests were able to sign up for events on site at the Registration Table via an analog registration form developed by MLTPA. Registration was recorded in the “CAMP: WINTER Master Registration List” in real time by MLTPA staff.
